

# The Motivation Habit Setup

I have setup this resellers license in such a way that setup will be super easy for you.

All you need to do is add your name to the sales letter however this is optional as there is no default place on the sales page to add your name because I wanted the sales page ready to go with ZERO editing required.

The only real requirement is that you hook up your order link and I made this really easy for you. The order button on the sales page jumps through a redirect in your new site. That is the addtocart.html file

If you open this addtocart.html file in any HTMLK editor or notepad all you need to do is change the

ADD-YOUR-PAYPAL-OR-OTHER-PAYMENT-LINK-HERE

Text to your paypal link and you will be good to go.

When you setup your payment link in paypal tell it to redirect buyers to

[www.YOURDOMAIN.com/TheMotivationHabit/index.html](http://www.YOURDOMAIN.com/TheMotivationHabit/index.html)

Obviously you will replace YOURDOMAIN in the link above with your actual domain, PayPal will send your buyers back here when they order to access the product.

We will also be doing a video showing this setup process it will be on the page you download this resale license from. If you misplaces your link to the download page you can contact our support desk and we will get you back there to watch this video.

Once your order link is added to the addtocard.html page just upload everything to your web hosting account.

You can rename the member's area folder "TheMotivationHabit" to anything you wish so it will not be the same folder name as any other resellers and use the member's area protection script of your choice to lock down your member's area, or you may just choose to use a name no one would ever guess and use no protection this is up to you.

As mentioned above the link to your member's area homepage will be:

<http://www.YourDomainName.com/TheMotivationHabit/index.html>

Again, I personally would rename the member's area folder to something new like I have done below.

<http://www.YourDomainName.com/GetMotivatedNow/index.html>

This is up to you but I would name it something new so it will not match any of the other resellers.

You will see in the main folder there are the following folders

PSD files to edit the graphics

Banner ads including PSD's to help market the product

and Solo ads you can use to help market your new members area.

You are also free to edit anything you want or just sell access as is, it's up to you.

**IMPORTANT:**

You may have noticed the only video included with this download is the sales page video.

The member's area videos have already been pre-embedded into your download page so your members can stream them right from your download page.

These videos are hosted in my paid Vimeo PRO account so there will be no ads or anything like that after the videos play.

Your or your customers may also download the video mp4 files from your copy of "your own" download page as well below each video.

I did not make these videos downloadable from my site as it would have been redundant since download links to the video source files are already located on your own download pages so if you need the MP4 files of the videos to edit that is where you will find them.

If you have any problems or questions please contact me for support I am happy to help, this is a premium product and premium support is included

**Done For You Setups:**

If you wish my staff is available to do complete done for you setups of your sales pages and members area for "The Motivation Habit" for \$75.00 –

Our setup fees vary from product to product depending on the complexity and time required to setup each individual product so this fee will vary for our other products.

DFY setups includes adding the member's area to any protection script you may use like Amember, it also includes making sure your buyers are added to your autoresponder account for you.

**Rebranding:**

My staff is available for custom rebranding of the product from “The Motivation Habit” to any other name you choose on all.

This includes rebranding the site webpages, sales copy, and graphics and includes adding a new visual and audio title into the opening video of your course in the first intro video in the member’s area. Rebranding is available for \$150.00 for the complete site.

Contact us using any of the means above for DFY setups or rebranding
